# Repositories CU

---

Central Library of Charles University operates the Research Publications Repository and the Digital Repository.

## Research Publications Repository

- The Repository serves to make available the full texts of the results of science and research at Charles University.
- It's creation is enshrined in [Rector's measure No. 40/2021, Registration of creative activities, projects and employees' mobility at Charles University](#)

More detailed information about this Repository and about the possibilities of auto-archiving your science and research results can be found on the [CU Research Publication Repository section on this website](#) .

## Digital Repository

The Repository serves to store and make available:

- University qualification and habilitation theses
- Open access monographs and periodicals published by faculties and units of the Charles University
- Open access monographs published by Karolinum Press

You can find more detailed information about this Repository and its contents on the [CU Digital Repository section on this website](#) .
