
Linking ORCID iD and OBD

This page is meant for researchers. If you are an identifier coordinator, visit [this page](#).

The ORCID iD is linked to the OBD IS Věda module directly in the OBD and consists of three main steps:

1. **Sign in to the system**
2. **Grant consent to linking**
3. **Set up synchronisation of publishing data**

For detailed instructions on how to link OBD and ORCID, please refer to the following [manual](#).

A brief overview of the basic steps is given below.

Before you begin

- **Not got an ORCID iD yet?** Set it up [here](#).
- **Need help with your profile?** (e.g. forgotten password, multiple profiles, etc.) Click [here](#).
- **Linking an ORCID profile with the OBD: IS Věda module is voluntary.** All authors from Charles University can decide for themselves whether to activate the link.
- **However, the registration of ORCID iD in the OBD: IS Věda module is mandatory for publishing authors** in the My Identifiers section (see [Rector's Directive No. 40/2021](#)). The following [manual](#) will help you with the registration of scholarly identifiers.

1. Signing in

- Sign in to the OBD: IS Věda module at: <https://is.cuni.cz/veda>
(Further information about the possibilities for signing in to IS Věda can be found [here](#)).
- Enter the IDENTIFIERS module.

Press the button to go to the desired module:

Scientific personnel identifiers, records of outputs, and internal classification

OBD
scientific outputs

COOP
Cooperatio

IDENTIFICATORS
scientific personnel

2. Consent to linking

- Scroll down to the Consent section and use the green consent button to link your ORCID profile.
- If you find that your ORCID profile is not listed in the identifiers, add it.

- Once you have given your consent, you can set the synchronisation attributes:
- a. Automatic transfer
- b. Automatic transfer according to your terms
- c. Manual submission

Cancel connection

More informations about ORCID you can find here <https://info.orcid.org/en/what-is-orcid/>

You can revoke and unlink your ORCID profile and OBD IS Věda at any time via the *Unlink ORCID* button.

Cancel connection

If you are not interested in linking at all, you can choose *NO, I do not want to link to ORCID*. (You can change this decision at any time.)

IS Věda was granted your approval with connection to your ORCID profile.

If you want to cancel connection, click "NO, don't connect with ORCID".

 **YES, connect with ORCID**

NO, don't connect with ORCID

Oops, did something go wrong?

If you need help with the linking process, please contact your faculty identifiers coordinator via the HelpDesk in OBD IS Věda.
